CONSTRUIS UN PIANO !

Le piano est l'un des instruments de musique les plus populaires dans le monde. Le premier piano a été construit par Bartolomeo Cristofori, Gardien des instruments pour le Grand Prince de Toscane, vers 1700. Aujourd'hui, il existe de nombreux types de pianos, y compris les pianos à queue et les pianos droits (comme celui-ci). Ce type de piano est appelé « droit », car il prend moins de place à cause des cordes et le cadre est vertical et non horizontal.

Vous pouvez construire ce piano avec votre collection de briques LEGO !
